Creating New Market Space Unabridged

Retail is the process of selling consumer goods or services to customers through multiple channels of distribution to earn a profit. Retailers satisfy demand identified through a supply chain. The term "retailer" is typically applied where a service provider fills the small orders of a large number of individuals, who are end-users, rather than large orders of a small number of wholesale ...

"Adaptive Space is the best book I've read about what it takes for big organizations to innovate as a way of life. Michael Arena blends rigorous research, success and failure stories, and his experience as a senior executive to show how to build companies where people uncover and weave together the best ideas, challenge conventional thinking and methods, and develop promising innovations ...

Space architecture, in its simplest definition, is the theory and practice of designing and building inhabited environments in outer space.. The architectural approach to spacecraft design addresses the total built environment. It is mainly based on the field of engineering (especially aerospace engineering), but also involves diverse disciplines such as physiology, psychology, and sociology.
