Fever in children is usually caused by infection. It also can be caused by chemicals, poisons, medicines, an environment that is too hot, or an extreme level of overactivity. Take the child's temperature to see if he has a fever. Most pediatricians consider any thermometer reading 100.4°F (38°C ...

First Aid Guide for Parents & Caregivers - HealthyChildren.org

First aid is the first and immediate assistance given to any person suffering from a serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery. It includes initial intervention in a serious condition prior to professional medical help being available, such as performing cardiopulmonary resuscitation (CPR) while awaiting for an ...

1 First Aid Guide for School Emergencies This flipchart is a quick reference guide for administering emergency care to an injured or ill individual.

First Aid Guide for School Emergencies

A first aid kit is a collection of supplies and equipment that is used to give medical treatment. There is a wide variation in the contents of first aid kits based on the knowledge and experience of those putting it together, the differing first aid requirements of the area where it may be used and variations in legislation or regulation in a given area.

First aid kit - Wikipedia

Choking occurs when a foreign object lodges in the throat or windpipe, blocking the flow of air. In adults, a piece of food often is the culprit.
