

Fish And Shark Webquest

Fish And Shark Webquest

This webquest by Adrian Tennant, published in association with Macmillan's Discover China series, includes activities on the traditions and food associated with Chinese New Year, as well as the Chinese calendar and zodiac signs. It is free to all onestopenglish users.

Webquest: Chinese New Year | Onestopenglish

More than one-third of U.S. fish and wildlife species are at risk of extinction in the coming decades. We're on the ground in seven regions across the country, collaborating with 51 state and territory affiliates to reverse the crisis and ensure wildlife thrive.

Onestopenglish: Number one for English language teachers

This page is a collection of links for children, teachers, and parents. Animal topics are based on the curriculum for Kindergarten through grade four, although many pages will be of interest to older students.

Teach the Children Well-Animals

Fresh water. Lots of different fish live in freshwater. Some animals live just part of their lives in the water. Dragonflies and mosquitoes live under water when they hatch out of eggs, then they change into flying insects.. Tadpoles hatch out of eggs laid by frogs and live under the water.

What lives in water? — kidcyber

Scientists have divided the ocean into five main layers. These layers, known as zones, extend from the surface to the most extreme depths where light can no longer penetrate. These deep zones are where some of the most bizarre and fascinating creatures can be found.
