Diabetes Diet: Guides and Meal Plan for Diabetic

You've recently been diagnosed with gestational diabetes, and you want to know what you can eat. Well, the good news is that other than foods to limit & avoid during pregnancy in general, there really aren't any foods that are forbidden when you have gestational diabetes. I did put together a gestational diabetes food list for you though.

Gestational Diabetes Food List - Knocked Up Noshing

When to screen. Your doctor will likely evaluate your risk factors for gestational diabetes early in your pregnancy. If you're at high risk of gestational diabetes — for example, your body mass index (BMI) before pregnancy was 30 or higher or you have a mother, father, sibling or child with diabetes — your doctor may test for diabetes at your first prenatal visit.

Gestational diabetes - Diagnosis and treatment - Mayo Clinic

Symptoms. For most women, gestational diabetes doesn't cause noticeable signs or symptoms. When to see a doctor. If possible, seek health care early — when you first think about trying to get pregnant — so your doctor can evaluate your risk of gestational diabetes as part of your overall childbearing wellness plan.

Gestational diabetes - Symptoms and causes - Mayo Clinic

This is a smart idea if you have more than one of the risk factors for gestational diabetes because you need to make sure you maintain healthy blood sugar levels regardless of whether you are diagnosed with gestational diabetes. Why? If you can maintain healthy blood sugar levels naturally, it is a shame to be diagnosed with pregnancy diabetes since puts you into a "high-risk" category ...
