How To Detox Lungs After Smoking? Our lungs are the most ignored organ of our body. Daily, they are exposed to killer pollutants and microbes that get deposited from the air you inhale. In the case of smokers, their healthy pink lungs turn black with the deposition of tar in their lungs. Regular detoxification of lungs will help in smooth functioning and help in expulsion of toxins.

13 Ways You Can Purify Your Lungs Naturally - Indiatimes

There's nothing worse than tossing and turning all night, before being awoken by the sound of your alarm clock just minutes after you finally manage to nod off! These sleepless nights can take their toll on our energy, productivity, mood and overall quality of life. One way to ensure a better quality of sleep is to fill your home with beautiful flowers and plants.
