### **Managing Projects In Developing Countries**

A developing country (or a low and middle income country (LMIC), less developed country, less economically developed country (LEDC), or underdeveloped country) is a country with a less developed industrial base and a low Human Development Index (HDI) relative to other countries. However, this definition is not universally agreed upon. There is also no clear agreement on which countries fit ...

The infrastructure gap in the developing world needs to be addressed if the global community aims to reach the Sustainable Development Goals. The development community has increasingly focused on financing from the private sector as a source of funding for these infrastructure projects and other development needs. This may make sense in middle-income countries, where
