Plant Life Growing A Garden

Soil Blocks to Grow Seedlings. A soil block is a cube of lightly compressed soil and nutrients that will grow one seedling. When the plant is ready to be transplanted, the entire block is planted into the soil. No root mangling will reduce transplant shock. When I first began gardening, I purchased transplants from a local nursery and had a....

Full sun. Plant your raised bed vegetable garden in a place you know is exposed to light most of the day. Editor's tip: If you don't have a spot in full sun, you can still grow leafy vegetables like lettuce and spinach. And if you're in a hot-summer climate, cool-season varieties such as peas may do better in part shade.
