Folded leaflets | Mixam Print

The Builder is a design pattern designed to provide a flexible solution to various object creation problems in object-oriented programming. The intent of the Builder design pattern is to separate the construction of a complex object from its representation. It is one of the Gang of Four design patterns

Builder pattern - Wikipedia

Gray: A horse with black skin but white or mixed dark and white hairs. Gray horses can be born any color, and lighten as they age. Most will eventually gray out to either a complete white or to a "fleabitten" coat, which retains speckles of the horse's original colour.

Equine coat color - Wikipedia

Last week I showed you my finished Colourblock Shawl, and I've finally had time to write up the pattern. It's a really simple design and the side-to-side construction means you can simply bind off whenever you want, and you'll have the perfect triangle shape.
