My colleague Jeff Kaye PhD recommended that I read Robert Whitaker's The Making of an Epidemic (pictured above) for insight into the scientific evidence concerning the effects of psychiatric medication. I read the entire book in one day and feel it is the most important work I've read in years. This and the following two posts will summarize Whitaker's most important findings but I ...

"You Have a Chemical Imbalance in Your Brain" (Big Lie #1)

Brain SPECT imaging is one of the best tools to identify areas of the brain hurt by a traumatic brain injury. There are consequences of TBI and concussions.

Brain damage or brain injury (BI) is the destruction or degeneration of brain cells. Brain injuries occur due to a wide range of internal and external factors. In general, brain damage refers to significant, indiscriminating trauma-induced damage, while neurotoxicity typically refers to selective, chemically induced neuron damage.. A common category with the greatest number of injuries is ...

Brain damage - Wikipedia

A list of residential programs for brain injury which include neurorehabilitation, post acute treatment, training for carers, community transition and rebuilding skills.

Residential programs for brain injury

In the first part of this series, I discussed Allan Schore's video about early neurological damage resulting from failures in the attachment relationship between mother and baby. In the second part, I used Schore's research to help explain why our defense mechanisms are so tenacious, and why authentic change is difficult and rare. I'd now like to conclude with my personal, somewhat ...
