Relationship With Alcohol

about this site. AlcoholScreening.org is a free service of the Partnership for Drug-Free Kids (formerly run through the Join Together News Service, a project of the Boston University School of Public Health).

AlcoholScreening.org | How Much is Too Much?

Alcohol consumption in Ireland almost trebled between 1960 and 2001, rising from 4.9 litres of pure alcohol per person aged 15 and over to 14.3 litres. It decreased the years that followed as an increase in excise duty, followed by the recession, impacted on alcohol's affordability. However, alcohol consumption has nonetheless remained at very high [...]

In chemistry, an alcohol is any organic compound in which the hydroxyl functional group (-OH) is bound to a carbon. The term alcohol originally referred to the primary alcohol ethanol (ethyl alcohol), which is used as a drug and is the main alcohol present in alcoholic beverages. An important class of alcohols, of which methanol and ethanol are the simplest members, includes all compounds ...

Alcohol - Wikipedia

"Alcoholics are addicted to alcohol. They are physically and mentally dependent on it. "There are two types of people that have an unhealthy relationship with alcohol: problem drinkers and alcoholics. Although it may seem like these two categories are one and the same, there are some distinct differences between them.
