

Special Volume Computational Chemistry

Special Volume Computational Chemistry

Atmospheric chemistry is a branch of atmospheric science in which the chemistry of the Earth's atmosphere and that of other planets is studied. It is a multidisciplinary approach of research and draws on environmental chemistry, physics, meteorology, computer modeling, oceanography, geology and volcanology and other disciplines. Research is increasingly connected with other areas of study such ...

Atmospheric chemistry - Wikipedia

Computational physics is the study and implementation of numerical analysis to solve problems in physics for which a quantitative theory already exists. Historically, computational physics was the first application of modern computers in science, and is now a subset of computational science.. It is sometimes regarded as a subdiscipline (or offshoot) of theoretical physics, but others consider ...

Computational physics - Wikipedia

Science Journal of Chemistry (SJC) , a peer-reviewed open access journal published bimonthly in English-language, provides a international forum for the publication of outstanding full papers from all areas of chemistry and related fields, and the attendant goal is to promote widespread acceptance of the Journal as an authoritative and indispensable holding in academic and institutional libraries.

Science Journal of Chemistry :: Science Publishing Group

This 3-volume set summarizes current research activities into the fundamental properties of doped nanomaterials and their applications in the fields of electronics, photonics, optics, homeland security and medical sciences.

American Scientific Publishers - New Titles at the ...

JCTN publishes peer-reviewed research papers in all fundamental and applied research aspects of computational and theoretical nanoscience and nanotechnology and general mathematical procedures dealing with chemistry, physics, materials science, engineering, and biology/medicine.

Journal of Computational and Theoretical Nanoscience

An efficient synthesis of 3-(3-oxoaryl) indole derivatives over existing methodology by using green chemistry approach was developed. The synthesized derivatives were evaluated for in vitro anticancer activity against B16F10 and MCF-7 cell lines for the first time and showed promising anticancer activity. Molecular docking studies proved that the compounds may be developed as tubulin ...

Mathematical and Computational Applications (ISSN 2297-8747; ISSN 1300-686X for printed edition) is an international peer-reviewed open access journal on the applications of the mathematical and/or computational techniques published quarterly online by MDPI from Volume 21 Issue 1 (2016).. Open Access - free for readers, with article processing charges (APC) paid by authors or their institutions.

The Journal of Bioenergetics and Biomembranes has a new Editor in Chief, Patric K. Stanton, who assumed his new position on August 1, 2018. Dr. Stanton is now joined by two new Associate Editors and an updated and expanded Editorial Board. This team is dedicated to growing and expanding JOBB to meet the research needs of its expanding audience. The Journal of Bioenergetics and Biomembranes is ...

Wolfram Notebooks offer the preeminent environment for any technical workflows—data science, modeling, research and education—empowering users with literate programming, easy-to-author interactivity and universal deployment across all platforms.

Wolfram Notebooks: Environment for Technical Workflows

ICV 2015: 79.83 NLM ID: 101594335. Medicinal chemistry is an academic journal deals with the facets of Chemistry, Pharmacanalysis and the chemical analysis of compounds in the form of like small organic molecules such as insulin glargine, erythropoietin, and others. It also helps in developing new chemical entities from existing compounds that are of medicinal and therapeutic effect.

APPLIED MATHEMATICS - washington.edu

This article is based on our personal experience and is our personal perspective from our careers in a big pharma company. Some points made will be unique to GSK and to the UK and we recognise that drug discovery also takes place in biotechs, academia and in non-profit institutions inter alia and certain points will not apply in these situations. But we hope most points capture practices and ...

Medicinal chemistry in drug discovery in big pharma: past ...

The molecule of water. A molecule is an aggregation of atomic nuclei and electrons that is sufficiently stable to possess observable properties — and there are few molecules that are more stable and difficult to decompose than H₂O. In water, each hydrogen nucleus is bound to the central oxygen atom by a pair of electrons that are shared between them; chemists call this shared electron pair ...
