Some foods, such as beets, may temporarily change the color of urine. Eating a lot of carrots, or drinking a lot of carrot juice, can turn it orange. Asparagus can make urine much brighter in color, as can some vitamins — usually vitamins C and B. Certain medications can also affect the color, as can food dyes. An unusual urine color may also indicate a health problem.

Why is Urine Yellow? (with pictures) - wisegeek.com

Urine does not usually have a strong odor to it. However, occasionally, it will have a pungent smell of ammonia. One explanation for an ammonia odor is high amounts of waste in the urine.

Why does my urine smell like ammonia? - medicalnewstoday.com

There are differences in the way kosher, sea and table salt taste—and in the way they measure, too. Kosher salt is coarser than table and fine sea salt, so you actually get less "salt" per teaspoon, because it won't pack as densely in the measure. This matters mostly when baking, where the ...

Does it really matter if I use kosher, table or sea salt ...

Chemistry in Everyday Life. Chemistry doesn't just happen in a lab. Use these resources to learn how chemistry relates to everyday life.

Chemistry in Everyday Life - ThoughtCo
