Random Number Generator. The random number generator in World of Tanks works by assigning a random value to the shells damage and penetration value, the fluctuation is +/- 25% so a gun with a 100 ap can end up having a max ap of 125 and the lowest value can be 75, these values are different for each shot, so you can find yourself Ricochet of a weakspot just because of a low roll, damage works ...

World of Tanks puts you in command over 500 war machines from the mid-20th century so you can test your mettle against players from around the world with the ultimate war machines of the era.

### **Online Multiplayer Tank Game | World of Tanks**

British heavy tanks were a series of related armoured fighting vehicles developed by the UK during the First World War.. The Mark I was the world's first tank, a tracked, armed, and armoured vehicle, to enter combat. The name "tank" was initially a code name to maintain secrecy and disguise its true purpose. The type was developed in 1915 to break the stalemate of trench warfare.
